

NIGHT RACER 50

Best price-performance ratio

Up to 50% more light

For better visibility and significantly shorter reaction times compared to standard halogen lamps

Up to 20 m longer light beam

For improved visibility and less eye strain compared to standard halogen lamps

Vibration resistance

Tested for the unusually high loads caused by speed and changing road surfaces

The motorcycle light with up to 50% more light

NIGHT RACER 50 motorcycle lamps convince with their excellent price-performance ratio. In comparison to standard halogen lamps, they emit up to 50% more light and have a 20 meters longer light beam. Thus, dangers and hazards can be seen earlier. With their vibration resistant technology, the lamps are tested under real conditions for the unusually high loads caused by speed and changing road surfaces. NIGHT RACER 50 features a modern design with a silver cap.
