

XSTAGE Xenon Short-arc Lamps

Области применения

- Spotlights
- Searchlights
- Solar Simulation

CBP_09.00 Product features and benefits, all [calc.]

- High luminance (point source) with rugged design for spotlight applications
- Color temperature approximately 6000K - simulates daylight
- Continuous spectrum in the visible range
- High color rendering > 95
- High arc stability
- DC operation
- Hot restart

Xstage XENON SHORT ARC LAMPS for
ENTERTAINMENT

Product family datasheet

Technical data

Product description	Electrical Data			Lifetime Data
	Nominal wattage [calc.]	Nominal voltage [calc.]	Current control range	Average Rated Life [GMS]
Xstage 4000 W OFR	4000 W	30 V	80...135 A	650 hr

Product family datasheet

Советы по безопасности

Because of their high luminance, UV radiation and high internal pressure in both the hot and cold state, Xstage lamps must only be operated in enclosed lamp casings specially constructed for the purpose. Always use the supplied protective jackets when handling these lamps. They may only be used as open lamps if appropriate safety measures are taken. More information is available on request or can be found in the leaflet included with the lamp or the operating instructions.

Application advice

For more detailed application information and graphics please see product datasheet.
