

ICEscraper 010

**Remove stubborn ice with minimal effort**

Rotating disc effortlessly cuts through ice

**Palm switch technology**

Designed for easy use, even while wearing gloves

**Small, lightweight and rechargeable
(USB-C charging cable included)**

Easily charge on the go with the included cable, have the ice scraper available when you need it most

**Effortlessly remove ice from your windshield**

Compared to traditional ice scrapers, an electric ice scraper makes removing ice significantly easier, requiring far less physical effort even in the harshest winter conditions. With a powerful rotating disc that efficiently breaks through thick layers of ice, users no longer need to struggle with frustrating scraping. This advanced design means that clearing a windshield is not only faster but also considerably more comfortable, enhancing the de-icing experience on frigid mornings. By reducing the time and effort needed, users can enjoy a quicker start to their day and spend less time exposed to the cold, making winter routines far more convenient and pleasant.
