

BATTERYstart 400

Jump starters

Engine size compatibility

To jump start 12 V vehicles up to 8 L with petrol engines and 4 L with diesel

Battery Power

High Power 16,800 mAh Lithium Cobalt battery

Powerbank-Function

Charging electronic devices including smart phones and tablets

Compact and powerful lithium jump starter with power bank feature

The OSRAM BATTERYstart400 is a high power Lithium Cobalt LiCoO₂ jump starter for 12V vehicles up to 8L with petrol engines and 4L with diesel. Compact, without compromising on power, the BATTERYstart400 fits easily into the glovebox of your car – making it easier to use when in an emergency.

The BATTERYstart400's intelligent clamps have anti-spike, reverse polarity and short circuit protection, keeping you, the car and the jump starter safe and in working condition.

Also includes a power bank feature for charging electronic devices such as mobile phones and tablets and a bright LED working light.

Ideal for all car sizes, SUVs, vans and motorcycles.

Technical data

Product description	Environmental & Regulatory Information Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACH)			
	Candidate List Substance 1	CAS No. of substance 1	Safe Use Instruction	Declaration No. in SCIP database
BATTERY start 400	Lead	7439-92-1	The identification of the Candidate List substance is sufficient to allow safe use of the article.	04bfb91c-9f38-4530-8bb1-23587637e9c4
