

## LEDsBIKE COMPACT 100 SET

### Up to 100 Lux

The powerful LED technology provides powerful illumination of up to 95 meters

### Battery life up to 12 hours (front light), 13 hours (rear light)

Ideal for long bike rides or commutes without having to worry about recharging

### Automatic mode

The integrated brightness sensor automatically adjusts the light intensity to the ambient light

### Rear light with automatic mode and brake light function

For greater visibility in road traffic

### Enhanced vision and visibility for every ride

The LEDsBIKE COMPACT 100 SET lights up your ride with powerful illumination—offering up to 100 lux brightness and a light beam of up to 95 meters for enhanced visibility and safety on the road.

### Adaptable lighting for every situation:

The front light offers multiple modes – automatic or manual – and three brightness levels (100 %, 50 %, 25 %). An integrated sensor adjusts the light automatically to the surroundings, while the intelligent rear light features an automatic mode and a brake light for extra safety.

### Long-lasting power, easy charging:

With a battery life of up to 13 hours<sup>1)</sup>, it is ideal for long journeys or commutes without having to worry about recharging. The included USB-C cable ensures convenient charging, while the battery and charging indicator keeps you informed at all times. The front light fully charges in 3 hours. The rear light only takes 2 hours to charge.

### Compact, durable, and weather-resistant:

The lightweight design features a durable black ABS housing with a transparent acrylic lens. Thanks to the Garmin-compatible mounting bracket, it fits handlebars from 22.2 mm to 35 mm securely and effortlessly. Certified according to German StVZO and with IP54 protection, it

resists rain, splashes, and dust – keeping you visible in all weather conditions.

Backed by a 2-year OSRAM guarantee<sup>1)</sup>, it's the ideal choice for cyclists who value safety, quality, and worry-free commuting.
