Go further and ride longer with 1000 lumens lighting your way through every adventure. Designed for demanding trails and adventurous rides, this robust lighting set offer enhanced visibility and safety – even in the toughest off-road conditions.

Adaptable lighting for every situation: The front light offers multiple modes: High (100 %), Low (50 %), Eco (25 %), Automatic and Flash. A key feature is its integrated sensor which automatically adjusts the brightness based on the ambient lighting conditions for optimal visibility. The set is complemented by an intelligent rear light with automatic mode, flashing light and integrated brake light for extra safety.

Long-lasting power, easy charging: With a battery life of up to 10 hours for the front light and up to 17 hours for the rear light, it is ideal for long journeys or commutes. Charging is quick and easy via the included USB-C cable. The battery and charging indicators keep you informed, while the memory function recalls your last setting so you can start your next ride with your preferred mode.

Ready for any terrain: The robust aluminum housing and transparent acrylic lens are designed to withstand the harshest conditions. The Garmin-compatible mount allows secure and stable installation and can be easily attached to
